TESTIMONIAL / LETTER OF REFERENCE

To Whom It May Concern,

This letter serves as a testimonial for **Jayden Heng Ghim Wee**. Resonic Studio Pte. Ltd. has had the pleasure of providing marketing services to his business.

Jayden is driven and dependable to work with. He consistently shows up where it matters and expects above and beyond service in return, which has pushed us to raise our own standards. What stands out most is his honesty and integrity. He is a man of his word, and our business dealings have always been carried out smoothly because of this trait.

He pursues his goals with genuine determination and is unafraid to take risks in order to grow, a quality that is far rarer than it should be. He also actively seeks feedback from the people he works with, not out of uncertainty, but because he believes that honest input from his partners helps steer his goals in the right direction.

I am confident that Jayden will go far, and I am happy to recommend him. It is not every day that I write a letter like this, and I do so because he is truly serious about what he sets out to achieve. Please feel free to contact me should you require any further information.

Yours sincerely,

Tan Xin Kai Joash

Co-founder & CEO, Resonic Studio Pte. Ltd.
